

Economic and Social Council

Distr.: General
10 August 2012

Substantive session of 2012
Agenda item 7 (g)

Resolution adopted by the Economic and Social Council

[on a proposal considered in plenary meeting (E/2012/L.18)]

2012/4. United Nations system-wide coherence on tobacco control

The Economic and Social Council,

Taking note of the report of the Secretary-General on the Ad Hoc Inter-Agency Task Force on Tobacco Control,¹ in which the need to further strengthen the multisectoral and inter-agency response for the full implementation of the World Health Organization Framework Convention on Tobacco Control,² as appropriate, is emphasized,

Recognizing the adverse impact of tobacco use on public health, as well as its social, economic and environmental consequences, including for efforts towards poverty eradication,

Considering the impact of non-communicable diseases related to tobacco use as a global epidemic, and recognizing that substantially reducing tobacco consumption is an important contribution to reducing non-communicable diseases and can have considerable health benefits for individuals and countries,

Acknowledging that the work of the Task Force should be consistent with system-wide coherence approaches to ensure that the United Nations system is able to deliver in a strategic and coordinated manner at the country level in support of the implementation of the Convention, where appropriate, in alignment with national priorities,

Recalling the obligation of Member States that are parties to the Convention to set up comprehensive, multisectoral national control strategies, plans and programmes, with support from the Convention secretariat, upon request,

Welcoming the Political Declaration of the High-level Meeting of the General Assembly on the Prevention and Control of Non-communicable Diseases, adopted on 19 September 2011,³ and recalling the first Global Ministerial Conference on

¹ E/2012/70.

² United Nations, *Treaty Series*, vol. 2302, No. 41032.

³ General Assembly resolution 66/2, annex.

Healthy Lifestyles and Non-communicable Disease Control, organized by the Russian Federation and the World Health Organization and held in Moscow on 28 and 29 April 2011,

Welcoming also the joint letter dated 26 March 2012 sent by the Director-General of the World Health Organization and the Administrator of the United Nations Development Programme to United Nations country teams to support country-level work on non-communicable diseases in a coordinated manner,

Recognizing the leading role of the World Health Organization as the primary specialized agency for health, including its roles and functions with regard to health policy within its mandate, in particular through its important work in the context of tobacco control and in the spirit of the “whole-of-WHO” working approach, and reaffirming its leadership and coordination role in promoting and monitoring global action against non-communicable diseases in relation to the work of other relevant United Nations agencies, development banks and other regional and international organizations in addressing non-communicable diseases in a coordinated manner,

Recognizing also the fundamental conflict of interest between the tobacco industry and public health, including in the work of the United Nations,

1. *Encourages* the Ad Hoc Inter-Agency Task Force on Tobacco Control to promote effective tobacco control policies and assistance mechanisms at the national level, including through the integration of implementation efforts in respect of the World Health Organization Framework Convention on Tobacco Control² within the United Nations Development Assistance Frameworks, where appropriate, in order to promote coordinated and complementary work among funds, programmes and specialized agencies;

2. *Invites* all members of the Task Force and other United Nations funds, programmes and specialized agencies to contribute, as appropriate, to the goals of the Convention, including through multisectoral assistance, public outreach and communication, in particular in the context of the prevention and control of non-communicable diseases;

3. *Requests* the Secretary-General, in close collaboration with the Director-General of the World Health Organization, to further integrate the aims of the Convention within the activities undertaken in the context of the implementation of the Political Declaration of the High-level Meeting of the General Assembly on the Prevention and Control of Non-communicable Diseases,³ in view of the fact that tobacco is itself one of the main risk factors for the most prominent non-communicable diseases, while also being associated with other risk factors;

4. *Also requests* the Secretary-General, in coordination with the Director-General of the World Health Organization, to convene annual meetings of the Task Force;

5. *Further requests* the Secretary-General to include in his report to the Economic and Social Council at its substantive session of 2013 options to effectively monitor the work of the Task Force and the integration of implementation efforts in respect of the Convention within the United Nations Development Assistance Frameworks, where appropriate, in order to promote coordinated and complementary work among funds, programmes and specialized agencies.

*42nd plenary meeting
24 July 2012*
